• 1:00 - 2:30 PM Free film screening - *The Anthropologist* (2015)

The Anthropologist examines climate change and the fate of our planet from the perspective of American teenager Katie Crate. Over the course of five years, she travels alongside her mother Susie, an anthropologist studying the impact of climate change on indigenous communities. Their journey parallels that of renowned anthropologist Margaret

Mead, who for decades sought to understand how global change affects remote cultures. Documentary, 78 minutes, rated TV-14.
