### The Shape of Sensation Fineberg Family Community Room

**The Shape of Sensation brings together creations spanning the last 25 years - paintings on wood, monotypes, drawings, and cardboard sculptures. Solitary Region, the largest work in the show, is an 8ft by 8 ft mandala-like painting on wood panels inspired, in part, by a talk Robert Thurman gave during a Mind-Science Conference in Cambridge.**

**Kimono, a carved and gauged painting on distressed wood is an exploration of organ-like forms which emerged from a series of black and white monotypes and drawings. Subsequent series of monotypes, including Between the Flowers and the Ground, work towards fracturing space, color and pattern on a smaller scale and introduce the language of textile and text block patterns. Reconfigured and painted violin cases, including The Day After, emerge as a bridge from the monotypes to more recent sculptural work in the Cardboard Menagerie, a series of life-sized animal-inspired forms joining cardboard, text block prints, and broken musical instruments.**

**We hope to see you there!**
